DESIGN PLAN FOR CAMP CRYSTAL LAKE WEBSITE

By Nathan Lavertue. 2026/10/02

Name for the company

The name of the company would be Crystal Lake Summer Camp. They rent out some cabins to campers and have a summer camp to occupy children, during day and night.

What it is for

The website will be used to either rent cabins for a specified amount of time or send kids for summer camp from home, which makes it easier to rent cabins since it can be done from anywhere. The same goes for the summer camp.

Pages

- HOME
  Main hub to go to the others pages, as well as general information and reviews from previous customers.
- OFFERS/SERVICES, COSTS
  Can rent out the cabins from here and buy summer camp subscriptions/spots for the kids.
- OPEN TIME
  Shows when responses can be expected if an email is sent. If it is for cabin/summer camp, shows when it is open from month to month. (Example: June to August)
- CONTACT US
  Provides all contact information of the team, including emails and a phone number for the reception.
- MEET THE STAFF
  Has images of the staff and details of why they are working there/their previous experiences.
- HOW IT WORKS
  Explains what will happen during the summer camp specifically, such as possible activities and when people sleep/wake up.

Targeted audience

The audience targeted are adults who work during the summer with children, so they can't take care of their children during the day. Age range of 20 to 50y/o. Targeted audience works during the summer and have young children/children who can't take care of themselves alone at home, or people who have no work during summer though wants to cool off somewhere remote. They are targeted as the site is a summer camp, allowing the parents to not worry about their children since they will be safe with people who are trained to interact with young children and keep them safe. Otherwise, campers can enjoy cabins in a forested area, some being further away from the cabins that the children will use, allowing for peacefulness.

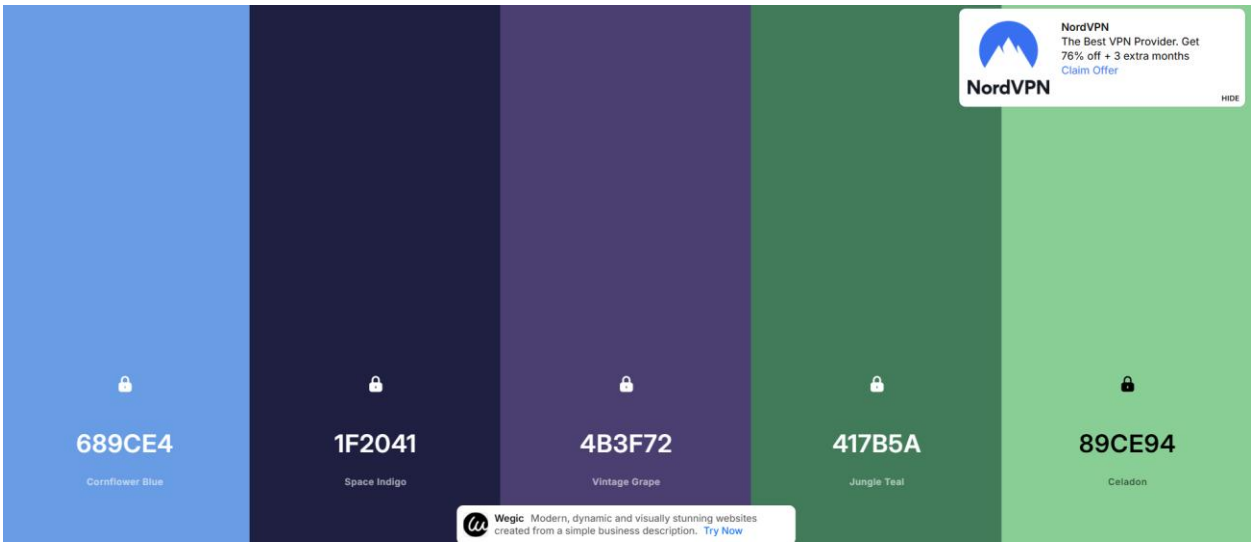

LOGO DESIGN

The logo will be half water at the bottom, with the top half being a sunrise.

BANNER DESIGN

COLOR PALETTE

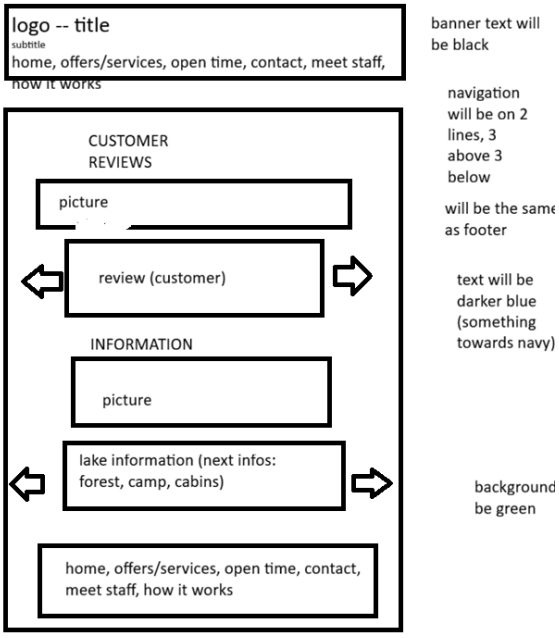

The blue will be used when describing water activities, such as kayak and swimming in the lake.

The green will be used when describing forest activities, such as hikes.

WIREFRAMES

MOBILE
